The Council then repaired to the Representatives Chamber and took the Seats allotted them when his Excellency addressed them as follows viz

Gentlemen of the Legislative Council and Gentlemen of the House of Representatives

At no period fellow citizens since the establishment of our Territorial Government has there existed more cause of congratulation for the prosperous state of the Country than at present. From the encreasing demand as well in the United States as in foreign Countries for the principal Commodity we cultivate for sale and from the safety with which it may now be transported to the best markets the Agriculturist may expect with confidence a full remuneration for the products of the soil. The prospect is not less promising to the Merchant the Mechanic and the Industrious of every description who may calculate with safety upon having reasonable hopes of advancement realized by our honest and steady prosecution of their respective vocations. The General health which the Inhabitants throughout the Territory have enjoyed for the last twelve months and the evidence which Experience furnishes that diseases annually become less frequent and less fatal when the Lands are opened and cultivated must be a source of satisfaction to all who have fixed there residence in this section of the Union. An extensive and valuable Tract of Territory lying within our limits has been lately acquired by the means of friendly negociation with the Cherokee and Chickesaw Tribes of Indians. This event must be pleasing to all who feel an interest in the growth and prosperity of the Country. It will afford to our fellow citizens of the States who may be inclined to avail themselves of the advantages of a new Country the opportunity

of procuring upon easy terms Lands of a fertile soil situated in a mild Climate and possessing the facilities of navigation we may therefore expect that the population of this Country so soon as these Lands are offered for sale will increase in a ratio to the present unbounded progress of human events. To these objects of mutual congratulation we may add the progressive improvement of our Citizens in the attainment of knowledge and the observance of those virtues which are essential to their Existence and the support of Government founded upon the principles of Freedom

The subject of Legislation to which I deem it my duty to ask your attention and that of your Constituents suggested by the operation of existing Laws

The Emolument of certain offices as established by law are so inconsiderable that in many instances especially in the small Counties it is difficult to procure fit persons to accept the appointments. These principles of Representative Government must plainly in the better established by experience than that Public Officers ought to receive a just remuneration for the services they are required to perform. This will ever be a source of regret while Talents and Integrity are not the exclusive attributes of those who can afford to give their time and attention to the public without any pecuniary reward. The Justices of the quorum receive no compensation for the services they render in holding Courts. It is needless to you Gentlemen that the faithful Exercise of the powers and punctual discharge of the duties attached to these offices are in many respects very important to the Community I therefore suggest to the Legislature the propriety of allowing a compensation that will indemnify those who officiate therein against pecuniary loss while attending the Courts The Fees that Constables are authorized to demand for

for this service and so small that but few persons are willing to accept the office, the consequence is that in scarcely any of the Counties are there a sufficient number of these officers to discharge the duties who are regularly commissioned and qualified to act conformably to the Statute

The office of Messenger and Translator of the Spanish Records has been vacant for some time and there is no prospect of being able to procure a person capable of discharging the duties for the fees allowed by Law The papers were delivered up by the person who last held the appointment and have been deposited for safe keeping in the office of the Secretary of the Territory. I submit to the Legislature whether it would not be more economical and more convenient to the Citizens interested in these Documents to have them translated and to authorize the translation to be read as Evidence in the courts of Justice Should the Legislature think this course the most advisable they will of course make such provision as will enable the Executive to employ a person fully qualified to perform the task

By an act of Congress passed at the last session concerning Field Officers of the Militia it is enacted that each Regiment consisting of two Battalions shall be commanded by one Colonel one Lieutenant Colonel, and one Major and that when there shall be only one Battalion it shall be commanded by a Major. The Legislature will perceive the necessity of amending the act of this Territory concerning the Militia so as to make it conformable to the act of Congress It gives me much satisfaction Gentlemen to inform you that a Paymaster has been nominated by the Paymaster General of the United States to pay the arrearages due to the Militia of this Territory for services rendered during the late war, and that I expect the

the same to be discharged as soon as arrangements can be made for that purpose.

By a Resolution of the Legislature of the 24th December 1814 five Thousand dollars was appropriated for the purpose of purchasing Camp Equipage and Munitions of war for the use of such detachments of Militia as might be ordered into service of the United States. How was expended in pursuance of this Resolution four Thousand five hundred and Eighty five dollars sixty four cents. The account and vouchers duly transmitted to the War Department by our Delegate for settlement. The Entire returns of the assessors and collectors for the several Counties, for the present year not having as yet been made to the accounting Officers, it is out of my power to state to you precise situation of the finances of the State. The Reports of the Auditor of public Accounts and of the Treasurer will be laid before you as soon as they can be prepared. The amount of Cash in the Treasury on the second day of the present month was 17063.16 dollars, From the returns that have come in and from the receipts and expenditures of the last year I am clearly ascertained that the amount of the Revenue due for the present year including the money on hand will greatly exceed the ordinary expenditures of the Government. I therefore suggest to the Legislature the propriety of reducing the present ratio of taxation and of adopting such measures as they may in their wisdom consider expedient for carrying of the surplus that may remain unexpended in the Treasury

Many objects of public utility will doubtless occur to you worthy of your attention and upon which a part of this surplus may be expended with advantage to the community. Should the Legislature however consider the present circumstances accompanied more convenient with the public Interest to suffer the

suffer the sums to accumulate until the accounts to a sum sufficient to justify the Commencement of an extensive system of internal improvement or until the Interest annually accruing from the sales be adequate to defray the ordinary expenditures of the Government How in either case it will be advisable to authorize the erection annually in some safe and profitable Work

In the adoption of all measures calculated to promote the happiness of our Citizens and to promote the prosperity of the Territory I offer to your Gentlemen the assurances of my most cordial Cooperation and faithful execution

signed David Holmes
